

Trauma Survivors Network

ThedaCare Regional Medical Center-Neenah is committed to supporting patients and families with programs and resources they need to manage recovery from serious injuries and improve their lives. We have partnered with the Trauma Survivors Network to offer more resources to our patients. It is a valuable addition to your hospital care team.

You Are Not Alone

The Trauma Survivors Network is a community of patients and families like you who want to rebuild their lives and connect with one another after a serious injury. Joining this community can help ease the anxiety and frustration that can happen after a sudden injury and hospital stay. Learning more and connecting with others can make a difference in how you feel and help you better manage your life after an injury.

Benefits of Joining

As a member, you will receive updates from the Trauma Survivors Network about virtual survivor support groups and classes. It is a great resource for practical information about injuries and treatment. The Trauma Survivors Network will connect you with other survivors and families who understand the challenges you face. It also offers information about other community programs and services.

You will:

- Discover how to meet everyday challenges after an injury
- Connect with others in similar situations and share experiences
- Learn about injuries from trauma experts
- Give hope and inspiration to others

Membership is Free

It is easy to sign up. Visit traumasurvivorsnetwork.org or scan this code:
